Dear Shareholder

On behalf of the Board I take pleasure in presenting the Prospectus for Gulf Manganese Corporation Limited's (**Company**) entitlement offer to Eligible Shareholders.

On 15 March 2016, the Company announced an intention to raise up to approximately \$1.8 million (before costs) via a renounceable entitlements issue.

The Offer is expected to raise up to approximately \$1.8 million (before costs) through the issue of up to 918,244,552 New Shares at an issue price of 0.2 cents per share on the basis of four (4) New Shares for every one (1) Existing Share held, together with 459,122,276 free attaching New Options on the basis of one (1) New Option for every two (2) New Shares subscribed for and issued under the Offer. The Offer will be made to all Shareholders with registered addresses in Australia and New Zealand on the Record Date of 31 March 2016.

Use of funds

The Company intends to apply the funds raised under the Offer to further advance the Company's main project which is development of the manganese alloy facility in Kupang, West Timor, Indonesia, to provide for initial payments on the South African smelter to be relocated to West Timor, for general working capital, and to fund the expenses of the Offer.

Please read this Prospectus carefully before deciding whether or not to invest. An investment in the Company contains specific risks which you should consider before making that decision. 2. DETAILS OF THE OFFER

2.1 Background

On 15 March 2016, the Company announced an intention to raise up to approximately \$1.8 million (before costs) via a renounceable entitlements issue to Eligible Shareholders.

2.2 Offer

This Prospectus contains a renounceable pro rata offer to Eligible Shareholders of up to approximately 918,244,552 New Shares (assuming no existing Options or Convertible Notes are exercised before the Record Date) on the basis of four (4) New Shares for every one (1) Existing Share held as at the Record Date at an issue price of 0.2 cents each, and 459,122,276 free attaching New Options on the basis of one (1) free attaching New Option for every two (2) New Shares subscribed for and issued exercisable at 0.5 cents within 36 months of issue, to raise up to approximately \$1.8 million before costs (**Offer**).

2.3 Minimum Subscription

The Minimum Subscription for the Offer is \$500,000.

No New Securities will be allotted or issued until the Minimum Subscription has been received. If the Minimum Subscription is not achieved within three months after the date of issue of this Prospectus, all Application Monies will be dealt with in accordance with the Corporations Act.

2.4 No Underwriting

The Offer is not underwritten.

2.5 Entitlements

The Offer is available to Eligible Shareholders who are on the Company's share register at the Record Date.

Fractional Entitlements will be rounded up to the nearest whole number of New Shares. For this purpose, holdings in the same name are aggregated for calculation of Entitlements, to the extent permitted by the Listing Rules. If the Company considers that holdings have been split to take advantage of rounding, the Company reserves the right to aggregate holdings held by associated Shareholders for the purpose of calculating Entitlements, to the extent permitted by the Listing Rules.

An Entitlement and Acceptance Form setting out Eligible Shareholders' Entitlement to New Shares and New Options accompanies this Prospectus.

2.6 Acceptances

The Offer may be accepted in whole or in part prior to 5.00pm (WST) on 14 April 2016 subject to the rights of the Company to extend the Offer period or close the Offer early.

Instructions for accepting your Entitlement are set out in **section 4** and on the Entitlement and Acceptance Form which accompanies this Prospectus.

2.7 Entitlements Trading

The Entitlements to New Shares are renounceable, which enables Eligible Shareholders who do not wish to take up some or all of their Entitlements to sell or otherwise transfer all or part of their Entitlement. Trading of Entitlements on the ASX is expected to commence on 30 March 2016 and end on 7 April 2016.

2.8 Applying for Additional New Securities under the Offer

Eligible Shareholders may, in addition to their Entitlement, apply for additional New Shares and New Options under the Offer regardless of the size of their present holding.

Any Entitlements not taken up may become available as Additional New Securities which may be placed by the Company. It is possible that there will be few or no Additional New Securities available for issue, depending on the level of take up of Entitlements by Shareholders. There is also no guarantee that in the event Additional New Securities are

available for issue, they will be allocated to all or any of the Eligible Shareholders who have applied for them.

It is an express term of the Offer that applicants for Additional New Securities will be bound to accept a lesser number of Additional New Securities allocated to them than applied for, if so allocated. If a lesser number of Additional New Securities is allocated to them than applied for, excess application money will be refunded without interest. The Company reserves the right to scale back any applications for Additional New Securities in its absolute discretion.

2.9 Lead Managers

Triple C and CPS have been appointed joint lead managers to the Offer. Details on the terms of the lead manager agreements are set out in section 7.2.

2.10 Placement of Shortfall Securities under the Offer

A Shortfall will arise if the Applications received for New Shares and New Options under the Offer are less than the number of New Shares and New Options offered.

The Directors reserve the right, subject to the requirements of the Listing Rules and the Corporations Act, to place any Shortfall Securities remaining after the satisfaction of applications for New Shares and New Options by Eligible Shareholders (including pursuant to **section 2.8) (Shortfall Offer)**.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months from the closing date of the Offer.

The issue price for each New Share to be issued under the Shortfall Offer will be not less than 0.2 cents, being the price at which New Shares are being offered under the Offer. Applicants for New Shares will receive one (1) New Option for every two (2) New Shares subscribed for and allotted under the Shortfall Offer.

The Shortfall Securities to be issued under the Shortfall Offer will be issued on the same terms as the New Shares and New Options issued under the Offer (except that the issue price of the New Shares offered under the Shortfall Offer may be higher than the issue price of the New Shares being offered under the Offer).

Investors who the Company invites to participate in the Shortfall Offer will need to follow the procedures advised to them by the Company for applications under the Shortfall Offer.

2.11 Details of substantial holders

Based on public available information as at 15 March 2016, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	%
Trinity Management Pty Ltd ¹	30,000,000	13.07%
Leprechaun Holdings Pty Ltd	24,250,000	10.56%
Bluewater Business Services Pty Ltd	27,500,000	11.98%
Total Shares on currently on issue	229,561,138	

Notes

1. Mr Hamish Bohannon, a director of the Company, has a relevant interest in the securities held by Trinity Management Pty Ltd.

2.12 Effect of the Offer on the Control of the Company

(a) General

Assuming no existing Options or Convertible Notes are exercised prior to the Record Date, the maximum number of New Shares which will be issued pursuant to the Offer is 918,244,552. This equates to approximately 80% of all the issued Shares in the Company following completion of the issue of Shares under the Offer.

The potential effect the Offer will have on the control of the Company's undiluted share capital will depend on the extent to which Eligible Shareholders take up their Entitlements under the Offer.

If all Eligible Shareholders take up their Entitlements in full, the Offer will have no material effect on the control of the Company.

Shareholders should be aware that if they do not participate in the Offer and the Offer is fully subscribed, their holdings are likely to be diluted by approximately 80% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

(b) **Substantial Shareholders and control of the Company**

As at the date of this Prospectus, Trinity Management Pty Ltd, Leprechaun Holdings Pty Ltd, and Bluewater Business Services Pty Ltd each have a relevant interest in 30,000,000 (13.07%), 24,250,000 (10.56%), and [27,500,000] (11.98%) respectively of the Company's total issued Shares and are, therefore, substantial Shareholders of the Company. In the event that Trinity Management Pty Ltd, Leprechaun Holdings Pty Ltd, or Bluewater Business Services Pty Ltd apply for Additional New Securities which become available as a result of a Shortfall (if any), the Company will not allocate any Additional New Securities such that their relevant interest in voting shares in the Company would exceed 20% of the total issued voting shares in the Company other, than in accordance with the Corporations Act.

2.13 Allotment and Application Money

The New Shares and New Options under the Offer will be issued only after all Application Money has been received and ASX has granted permission for the New Shares and New Options to be quoted. It is expected that New Shares and New Options will be issued on 21 April 2016 and normal trading of the New Shares and New Options on ASX is expected to commence on 22 April 2016. All Application Money received before New Shares and New Options are issued will be held in a special purpose account. After Application Money is refunded (if required) and New Shares are issued to applicants, the balance of funds in the account plus accrued interest will be received by the Company.

2.14 Quotation

Application will be made within seven days of the date of issue of this Prospectus for the New Shares and New Options to be granted Official Quotation by ASX. If such an application is not made within these seven days, or Official Quotation of the New Securities is not granted by ASX within three months of the date of this Prospectus, then the Company will not allot or issue any New Shares and New Options and the Application Money received will be repaid as soon as practicable, without interest.

The fact that ASX may agree to grant Official Quotation of the New Securities is not to be taken in any way as an indication of the merits of the Company or the New Securities. ASX takes no responsibility for the contents of this Prospectus.

2.15 Issue Outside Australia and New Zealand

This Prospectus does not constitute an offer of New Securities in any jurisdiction where, or to any person to whom, it would not be lawful to issue the Prospectus or make the Offer. No action has been taken to register or qualify the New Securities or the Offer or otherwise to permit an offering of New Securities in any jurisdiction outside Australia and New Zealand.

This document is not for publication or distribution, directly or indirectly, in or into the United States of America (including its territories and possessions, any state of the US and the District of Columbia). This document is not an offer of securities for sale into the United States or to, or for the account or benefit of, US Persons. The securities referred to herein have not been and will not be registered under the US Securities Act of 1933, as amended, and may not be offered or sold in the United States or to, or for the account or benefit of, US Persons. No public offering of securities is being made in the United States.

2.16 Treatment of Overseas Shareholders

The Offer in this Prospectus is not being extended to any Shareholder, as at the Record Date, whose registered address is not situated in Australia or New Zealand because of the

small number of such Shareholders, and the cost of complying with applicable regulations in jurisdictions outside Australia and New Zealand. The Prospectus is sent to those Shareholders for information only.

The Offer contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2013* (New Zealand). Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any securities under this Prospectus.

Recipients may not send or otherwise distribute this Prospectus or the Entitlement and Acceptance Form to any person outside Australia (other than to Eligible Shareholders).

It is the responsibility of any Shareholder who submits an Entitlement and Acceptance Form to obtain all necessary approvals for the allotment and issue of the New Shares and New Options under this Offer. The return of a completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation and warranty by the applicant to the Company that there has been no breach of such laws and that all relevant approvals have been obtained.

2.17 Nominee

The Company will appoint a Nominee approved by ASIC under section 615 of the Corporations Act to sell the Non-qualifying Foreign Shareholders Entitlements.

For the purposes of section 615 of the Corporations Act, the Company will issue to the Nominee the right to acquire those New Shares that Non-qualifying Foreign Shareholders would otherwise have been entitled to apply for had they been an Eligible Shareholder.

Any subsequent sale of the Non-qualifying Foreign Shareholders Entitlements will be at a price and be conducted in a manner that the Nominee will determine in its absolute discretion. To the maximum extent permitted by law, neither the Company nor Nominee will be liable for selling the Entitlements at any particular price.

The net proceeds (if any) of sale (in Australian dollars) will be distributed to the Non-qualifying Foreign Shareholders for whose benefits the Entitlements have been sold in proportion to their Shareholdings as at the Record Date (after deducting the costs of the sale).

Non-qualifying Foreign Shareholders should note that neither the Company nor the Nominee is acting as their agent and that there is no guarantee that any net proceeds will be realised from the sale of Entitlements under section 615 of the Corporations Act.

2.18 Market Prices of Existing Shares on ASX

The highest and lowest market sale price of the Existing Shares, which are on the same terms and conditions as the New Shares being offered under this Prospectus, during the three months immediately preceding the lodgement of this Prospectus with the ASIC, and the last market sale price on the date before the lodgement date of this Prospectus, are set out below.

	3 months high	3 months low	Last Market Sale Price
Existing Shares	\$0.02 on 17 Dec 2016	\$0.004 on 17 Mar 2016	\$0.004 on 17 Mar 2016

2.19 Opening and Closing Dates

The Offer will open for receipt of acceptances on 5 April 2016 and will close at 5.00pm (WST) (3.00pm (WST) for BPAY®) on 14 April 2016, subject to the right of the Company to vary these dates.

2.20 CHES

The Company participates in the Clearing House Electronic Sub-register System (**CHES**). ASX Settlement, a wholly owned subsidiary of ASX, operates CHES in accordance with the ASX Listing Rules and the ASX Settlement Operating Rules.

Under CHES, applicants will not receive a certificate but will receive a statement of their holding of New Securities.

If you are broker sponsored, ASX Settlement will send you a CHES statement.

The CHES statement will set out the number of New Securities issued under this Prospectus, provide details of your holder identification number and give the participation identification number of the sponsor.

If you are registered on the issuer sponsored sub register, your statement will be dispatched by the Company's share registrar and will contain the number of New Securities issued to you under this Prospectus and your security holder reference number.

A CHES statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

2.21 Rights and Liabilities attaching to the New Securities

The New Shares issued under the Offer will rank equally in respect of dividends and in all other respects (e.g. voting, bonus issues) as Existing Shares.

The New Options issued under the Offer will be exercisable at 0.5 cents each on or before 21 April 2019.

A summary of the rights and liabilities attaching to the New Securities is set out in **section 5**.

2.22 Taxation Implications

The Directors do not consider that it is appropriate to give Shareholders advice regarding the taxation consequences of the Company conducting the Offer or Shareholders or other eligible applicants applying for New Securities under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions of Shareholders. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to Shareholders under the Offer. Shareholders should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Issue.

2.23 Notice to nominees and custodians

Nominees and custodians that hold Existing Shares should note that the Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of securities. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is compatible with applicable laws.

2.24 Enquiries

Any queries regarding the Offer should be directed to Mr Leonard Math, Company Secretary on +61 8 9367 9228.

Any queries regarding the Entitlement and Acceptance Form should be directed to the Share Registry, Automic Registry Services on +61 8 9324 2099.

The Half Year Report of the Company for the half year ended 31 December 2015 stated the following:

“The interim financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

The consolidated entity had net current liabilities of \$1,135,497 at 31 December 2015 (30 June 2015: \$1,465,648), incurred a net loss after tax for the six months ended 31 December 2015 of \$1,770,790 (31 December 2014: loss \$849,537) and experienced net cash outflows from operating activities of \$884,092 (31 December 2014: \$701,751).

Whilst the directors have instituted measures to preserve cash and secure additional finance, they recognise that the Group’s ability to continue as a going concern is dependent on its ability to raise additional capital to fund its business plans. Furthermore, the ability of the Group to continue as a going concern is subject to the ability of the Group to successfully develop and commercialise products. The Group is a listed company, and has been successful in raising capital on the ASX in the past. The Company expects to be able to raise additional capital from the Capital market, and on that basis, the directors believe that the going concern basis of the presentation is appropriate.

On 15 March 2016, the Company announced a 4 for 1 renounceable rights issue at 0.2 cents per share, with 1 free attaching listed option (exercisable at 0.5 cents within 36 months from issue) for every 2 New Shares issued, to raise up to \$1.8 million before costs with a minimum raising of \$0.5 million. It is anticipated that the rights issue will be completed by end of April 2016.

Nonetheless, the Group’s working capital position and other year-end financial indicators show a significant uncertainty whether the Group will be able to continue as a going concern.

Should the Company be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different from those stated in the financial report.

The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that may be necessary should the Group be unable to continue as a going concern.”

5.1 Rights attaching to New Shares

The New Shares to be issued pursuant to this Prospectus are fully paid ordinary shares and will as from their allotment rank equally in all respects with all Existing Shares.

A summary of the rights attaching to the New Shares is set out below.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the

contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(d) All Shares issued upon the exercise of the Options will rank equally in all respects with the Company's then existing Shares.

(e) Application will be made to ASX for Official Quotation of the Options.

(f) Application will be made to ASX for Official Quotation by ASX of all Shares allotted pursuant to the exercise of Options within the time period required by the Listing Rules after the date of allotment.

- (g) The holders of Options may only participate in new issues of securities as holders of Shares if an Option has been exercised and Shares have been allotted in respect of the Option before the record date for determining entitlements to the issue. The Company must give notice to the holder of the Options of any new issue before the record date for determining entitlements to the issue in accordance with the ASX Listing Rules or any waiver from the Listing Rules provided to the Company by ASX.
- (h) There will be no change to the exercise price of an Option or the number of Shares over which a Option is exercisable in the event of the Company making a pro rata issue of Shares or other securities to the holders of Shares (other than for a Bonus Issue).
- (i) If, from time to time, before the expiry of the Options, the Company makes a pro rata issue of Shares to Shareholders for no consideration (**Bonus Issue**), the number of Shares over which an Option is exercisable will be increased by the number of Shares which the holder would have received if the Option had been exercised before the record date for the Bonus Issue (**Bonus Shares**). The Bonus Shares must be paid up by the Company out of profits or reserves (as the case may be) in the same manner as was applied in the Bonus Issue and upon issue rank equally in all respects with the other Shares of that class at the date of issue of the Bonus Shares.
- (j) If, prior to the expiry of any Options, there is a reorganisation of the issued capital of the Company, the Options will be reorganised in the manner set out in and to the extent necessary to comply with the Listing Rules applying to a reorganisation of capital at the time of the reorganisation.

6. RISK FACTORS

6.1 Overview

- (a) The New Securities offered under this Prospectus are considered speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus, and to consult their professional advisers, before deciding whether to apply for New Securities pursuant to this Prospectus.
- (b) There are specific risks which relate directly to the business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.
- (c) The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Company Specific Risks

- (a) **Manganese Ore Demand and Price Volatility and Supply**

The demand for, and price of, manganese ore is highly dependent on a variety of factors, including international supply and demand, the level of steel product demand, weather conditions, the price and availability of alternatives, actions taken by governments and international cartels, and global economic and political developments. Fluctuations in steel prices and, in particular, a material decline in the price of steel may have a material adverse effect on the Company's business, financial condition and results of operations. The supply of manganese ore will be important to the proposed smelter business of the Company and given that the Company does not presently own its own tenements, it will need to enter into supply contracts and/or source supply from third parties. The ability to source that supply at an acceptable price and volume will affect the proposed smelter business.
- (b) **Foreign Exchange Risk**

The current operations of the Company are in Australia and Indonesia and the costs of some revenues from operations will be in Indonesian Rupiah. As the Company's financial reports will be presented in Australian dollars, the Company will be exposed to the volatility and fluctuations of the exchange rate between the Rupiah and the Australian dollar. Global currencies are affected by a number of factors that are beyond the control of the Company. These factors include economic conditions in the relevant country and elsewhere and the outlook for interest rates, inflation and other economic factors. These factors may have a positive or negative effect on the Company's development plans and activities together with the ability to fund those plans and activities.
- (c) **Environmental Risk**

The Company is subject to environmental laws and regulations in connection with operations it may pursue. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with all applicable laws. However, the Company may be the subject of accidents or unforeseen circumstances that could subject the Company to extensive liability. Further, the Company may require approval from the relevant authorities before it can undertake activities that are likely to impact the environment. Failure to obtain such approvals will prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations that may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area. The Company's operational risks include environmental hazards such as accidental spills or leaks, ruptures and discharge.

The occurrence of any such incident could result in substantial costs to the Company for environmental rehabilitation, damage control and losses.

(d) Potential for dilution

Upon implementation of the Offer, the number of Shares in the Company will increase from 229,561,138 currently on issue to a maximum of 1,147,805,690. This means that each Share will represent a lower proportion of the ownership of the Company. It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters

(e) Power Sourcing

Whilst the Indonesian government owned Kupang power provider (PLN) has a written agreement with PT Gulf Mangan to provide power for the initial smelting operations and expansion plans which should be more than capable of fulfilling future power needs, this capacity does not exist today and there is no agreement in place with regard to future power costs. Until these are achieved, the Company has plans to install individual coal fired power plants with each subsequent smelter unit.

(f) Further working capital

In the event the Company only raises the minimum subscription amount under this Prospectus, then the Company will be required to raise further capital within the next 6 months. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

6.3 General Risks

(a) Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's development and production activities, as well as on its ability to fund those activities.

(b) Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) Additional requirements for capital

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing may dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(d) Dividends

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors

considered relevant by the Directors. The Company can give no assurance in relation to the payment of dividends or franking credits attaching to dividends.

(e) Reliance on key personnel

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

(f) Sovereign Risk (General)

The Company's key operations are located in Indonesia. Possible sovereign risks associated with operating in Indonesia include, without limitation, changes in the terms of legislation, changes to royalty arrangements, changes to taxation rates and concessions and changes in the ability to enforce legal rights. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its shares. No assurance can be given regarding future stability in Indonesia or any other country in which the Company may, in the future, have an interest.

(g) Insurance risks

The Company maintains insurance for certain activities within ranges of coverage that it believes to be consistent with industry practice and having regard to the nature of activities being conducted. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

(h) Market risk and interest rate volatility

From time to time, the Company may borrow money and accordingly will be subject to interest rates which may be fixed or floating. A change in interest rates would be expected to result in a change in the interest rate to the Company and, hence, may affect its profit.

(i) Competition

There is a risk that the Company will not be able to continue to compete in the competitive industry in which it operates. The potential exists for the nature and extent of the competition to change rapidly, which may cause loss to the Company.

(j) Share market

There are general risks associated with an investment and the share market. The price of the Company's securities on the ASX may rise and fall depending on a range of factors beyond the Company's control and which are unrelated to the Company's financial performance. These factors may include movements on international stock markets, interest rates and exchange rates, together with domestic and international economic conditions, inflation rates, investor perceptions, changes in government policy, commodity supply and demand, government taxation and royalties, war, global hostilities and acts of terrorism.

(k) Liquidity risk

There is no guarantee that there will be an ongoing liquid market for the Company's securities. Accordingly, there is a risk that, should the market for the Company's securities become illiquid, Shareholders will be unable to realise their investment in the Company.

(l) Investment speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above may, in the future, materially affect the financial performance of the Company and the value of the Company's securities.

7. ADDITIONAL INFORMATION

7.1 Continuous Disclosure Obligations

The Company is a "disclosing entity" (as defined in section 111 AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Securities which will be issued pursuant to this Prospectus are in the same class as, or are options to acquire, Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a "transaction specific prospectus" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities or options to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issue of New Securities on the Company and the rights attaching to the New Securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the closing date of the Offer:
